# Wood Look

Walls-external

Our wood-look aluminium provides the perfect blend of style and sustainability, offering the natural aesthetics of timber without the environmental impact. Unlike traditional wood, wood-look aluminium is resistant to weathering, pests, and rot, ensuring longevity with minimal maintenance. It is a more sustainable choice that reduces deforestation and aligns with a commitment to environmental responsibility, making it ideal for projects that prioritize both beauty and eco-consciousness. Here are our recommended options for colors and types to help you find the perfect match for your design needs.

**Spotted Gum**

**Dark Bush Cherry**

**Black Ash**

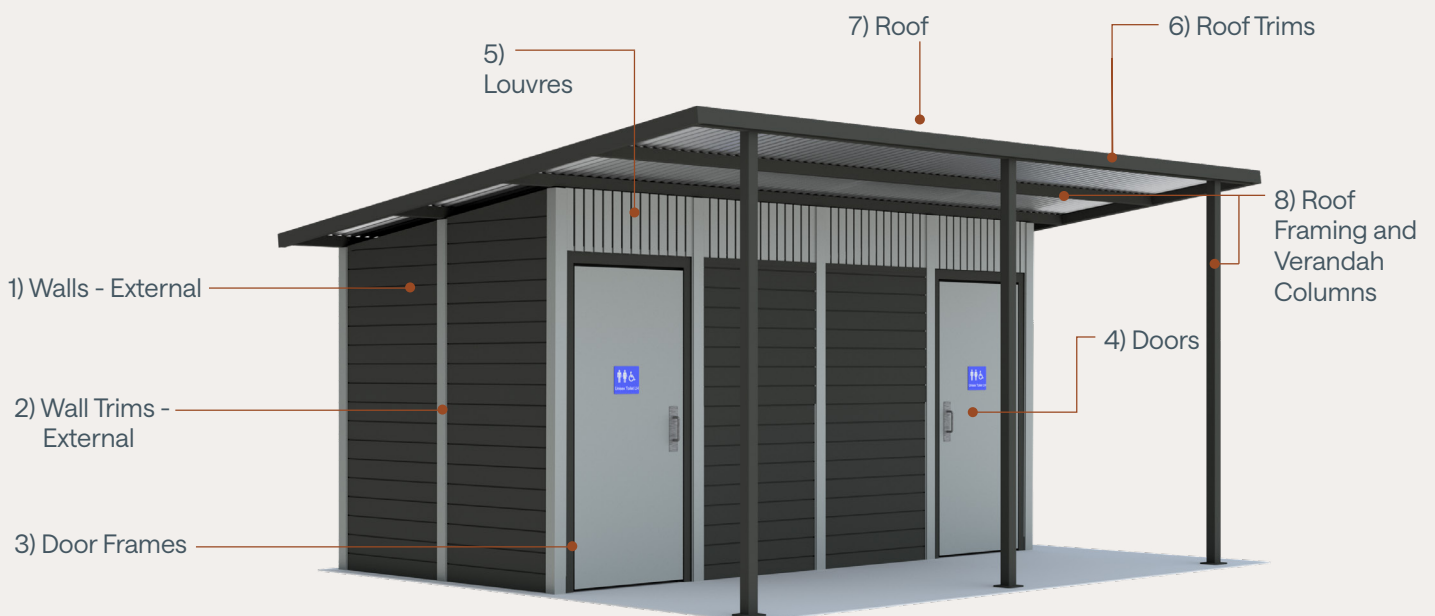

**Driftwood**

# Colour Selection Matrix

#	Building element	Materials	Colour ranges/s
1	Walls-external	Colorbond Steel	Standard
		Extruded Alum. Cladding	Standard, Wood-look
		Wood Plastic Composite Battens	Wood Plastic Composite
		Aluminium Composite Panel	Aluminium Composite Panel
2	Wall trims-external	Colorbond Steel	Standard
3	Door frames	Aluminium	Standard
4	Doors	Colorbond Steel	Standard
5	Louvres	Aluminium	Standard
6	Roof	Colorbond Steel	Standard
7	Roof trims	Colorbond Steel	Standard
8	Roof framing and verandah columns	Steel, hot dip galvanized	Standard
9	Walls-internal	Mini-orb	Standard
