Public Amenity Buildings

**Public amenity
buildings,
easily done**

Why Modus

We make it easy to deliver toilet amenity building projects.

Great design without expensive external consultants

Manage design and compliance efficiently, ensuring high quality without costly consultants to make every step easy.

Fast construction with pre-fab modular system

Unique pre-fab panel system reduce on-site work, enabling quick, sustainable construction.

Successful projects, either turnkey or supported supply

Opt for turnkey construction or supported supply, delivering reliable project execution.

Our buildings

Standard

1-7 toilet cubicles

Our most common building and available in a range of styles, these are perfect for most park locations. Cubicles can be used for toilets, showers, small changerooms or storage.

Yarra

Burton

Shetler

1-7 toilet cubicles, integrated shelter

A standard building with an integrated shelter, these buildings combine the toilet amenity with somewhere to rest and recharge, well suited to rest stops and national parks.

Atlantis

Capricorn

InCube

Olympus

Multi-use

Large buildings including toilets, showers, change rooms

Larger buildings, ideal for high use areas such as busy foreshores, playspaces, holiday parks and sporting grounds. Cubicles can be used for toilets, showers, changerooms or storage.

Whitehaven

Changing Places

Special facilities for people with high support needs

Changing Places provide a much needed amenity to adults living with severe disabilities, offering full facilities for changing, showering and toilet needs.

Changing Places 2

Noosa
